Diamond Tools

XLERATOR

The Xlerator is our most popular blade designed for maximum performance on a variety of materials.

FEATURES & BENEFITS

10mm Alternating Segments

Combination of jumbo segmented and segmented turbo delivers lightning fast cutting. Placing 2 segments per landing insures less drag on the blade.

Diamond Matrix

Unique segment manufacturing process of alternating bonds to deliver ultra long life and lower cost per cut.

Wide Gullet & Cooling Holes

Wide gullet design in tandem with cooling holes keeps the blade cutting on the hardest of materials.

Applications

Available in 14" primarily used for Concrete, Stone and other General Purpose Materials.
