VANE

The Vane is our signature blade designed for the most demanding contractor who is looking for a blade that will deliver the lowest cost per cut on Cured Concrete and other General Purpose Materials. Revolutionary superabrasive technology makes this blade truly unique.

FEATURES & BENEFITS

10mm Alternating Segments

Combination of Jumbo Segmented and segmented turbo delivers lightning fast cutting. Placing 2 segments per landing insures less drag on the blade.

Diamond Matrix

One of the only blades on the market that utilizes revolutionary superabrasive technology instead of traditional diamonds.

Wide Gullet & Cooling Holes

Wide gullet design in tandem with cooling holes keeps the blade cutting on the hardest of materials.

Applications

Available in 14", 16", 18", 20" & 24" primarily used for Concrete, Stone and other General Purpose Materials.
