Diamond Tools

## BLUE SHARK

Our most popular General Purpose Blade for the contractor who is looking for exceptional value and maximum performance on Hand Held Saws or Low Horsepower Walk Behind Saws.

## FEATURES & BENEFITS

### 10mm Alternating Segments

Combination of segmented and segmented turbo delivers lightning fast cutting. Placing 2 segments per landing insures less drag on the blade.

### High Concentration

Unique segment manufacturing process to insure maximum cutting performance.

### Wide Gullet & Cooling Holes

Wide gullet design in tandem with cooling holes keeps the blade cutting on the hardest of materials.

### Applications

Available in 14" primarily used for General Purpose, Stone and Masonry.
